# Healthcare Innovation

# Key Use Cases for Allscripts Remote

## View Patient Summary

- Access latest patient information in real time
- Call the patient's home phone with a single tap
- Review patient summary while speaking with patient on the iPhone

## View Schedule

- Access the latest schedule
- Find a recent patient seen in the office (or a patient who is coming in soon)

## Fax to Emergency Room

- Send up-to-date patient summary information to emergency rooms
- Pick from a list of area Emergency Rooms
- Fully document in your Allscripts EHR

The screenshot shows a mobile application interface for a patient summary. At the top, the status bar displays 'AT&T', signal strength, Wi-Fi, the time '7:31 PM', and battery level. The app header has a 'Back' button and the title 'Patient Summary'. The patient information section displays 'Smith, Theodore S' (79y Male), '2300 Commonwealth Avenue' (26-Mar-1930), and 'Anytown, MD 22222' (H (555) 555-1212). Below this are three sections: 'Medications' listing 'Lisinopril 10 MG Oral Tablet, #30, TAKE 1 TABLET DAILY., 5 refills', 'Ranitidine HCl 150 MG Oral Tablet, #30, TAKE 1 TABLET DAILY AT BEDTIME., 5 refills', and 'Saw Palmetto 500 MG Oral Capsule, #, TAKE 1 CAPSULE DAILY.[Reported] , NO REFILLS'; 'Allergies' listing 'Sulfa Drugs' and 'Penicillins'; and 'Past Medical History' listing 'History of Incomplete Emptying Of Bladder (788.21)'. At the bottom is a navigation bar with four icons: 'Summary' (person icon), 'Write Rx' (Rx icon), 'ER' (ER icon), and 'Document' (document icon).

# Key Use Cases for Allscripts Remote

## Document A Call

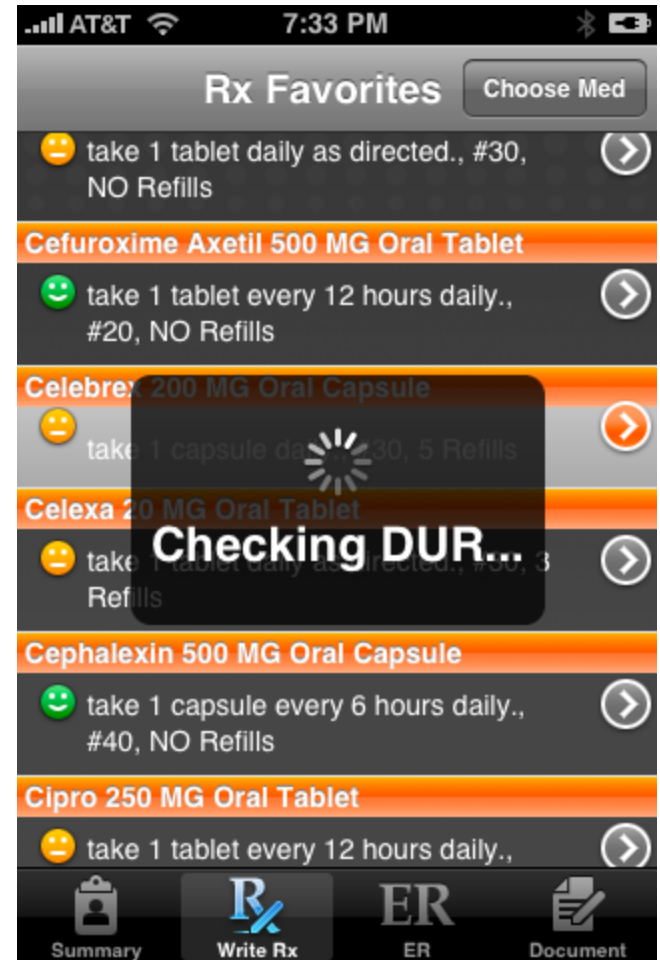

- Reduce medical liability with better documentation of out-of-office actions

## Find A Patient

- Quickly find the patient based on the information you know
- Quickly find a patient by searching for last four digits of their phone number

## ePrescribe with Formulary and Drug Interaction Checking

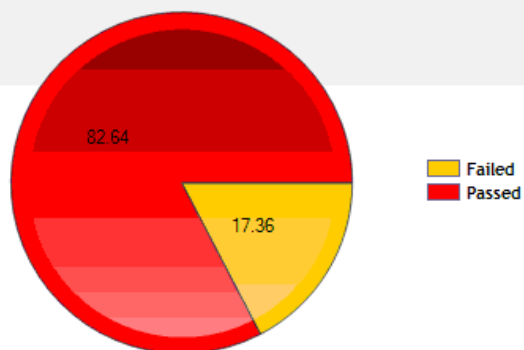

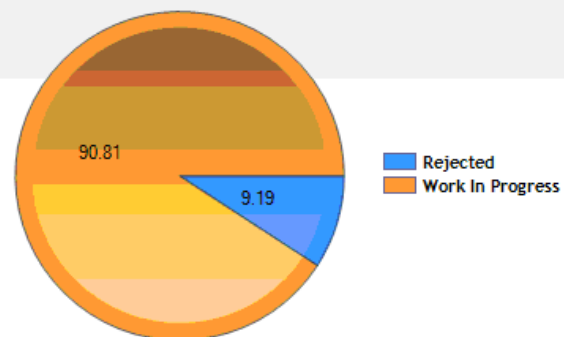

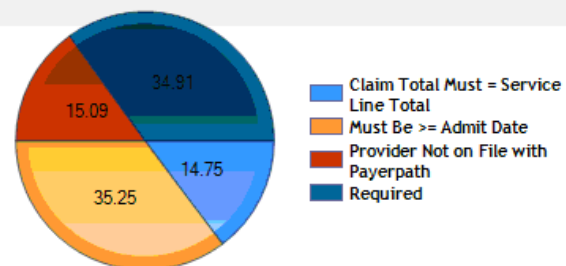

- Access full ePrescribing including favorites and full medication search and custom sigs
- Check patient-specific formulary status
- Fully document in your Allscripts EHR

# CC / HPI:

He presented with headache. It is located throbbing and in the left frontal area. It is described as aching, dull and pressure. The symptom is gradual in onset. The symptom started 3 days ago. The complaint moderately limits activities. The frequency of episodes is daily. Episodes last 2 hours. Episodes occur in the morning and in the evening. Pertinent medical conditions include migraines. Important triggers include no known associated factors. The symptom is alleviated by darkness and quiet/silence. The symptom is exacerbated by lack of sleep, stress, sunlight and weather change.

In addition, he presented with sore throat. It is located on both sides. It is described as burning, chronic and constant. The symptom is gradual in onset. The symptom started 3 days ago. The complaint limits oral intake. The frequency of episodes is daily. Episodes last 2 hours. Episodes occur in the morning and in the evening. Pertinent medical conditions include voice over use. Significant medications include ibuprofen. Important triggers include weather change and allergens. The symptom is alleviated by lozenges and salt water gargles.
